Nothing takes to the road like a Chevy!

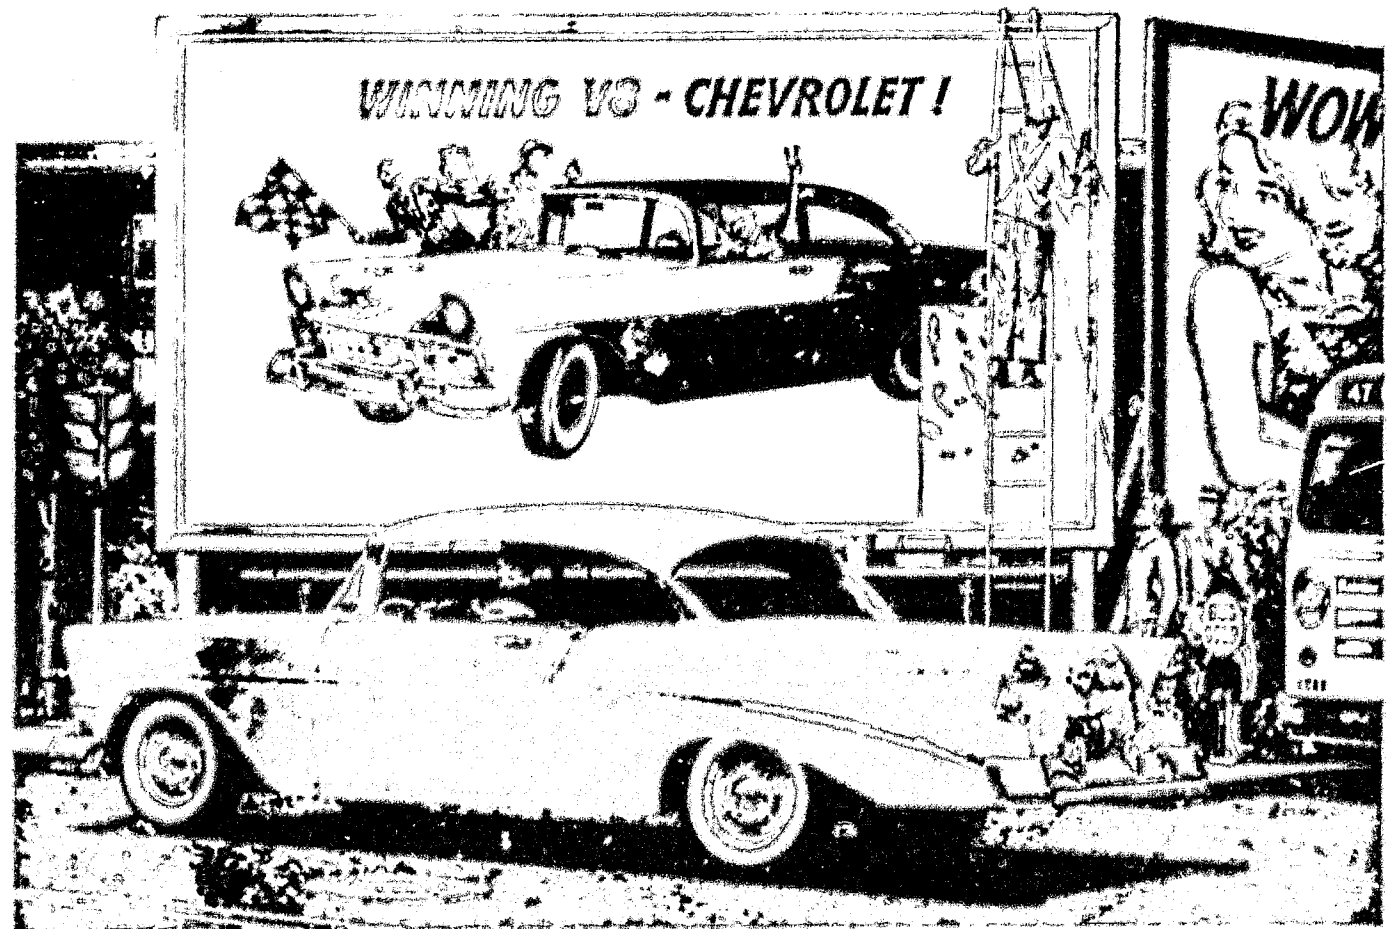

Once in a blue moon a car like this comes along—a design so advanced in performance, so beautifully balanced that it stands out above every other car on the highway. It has a solid, sure-footed way of going that makes driving safer and more pleasant on any road. And you feel a very special sense of security in its rapid-fire responsiveness to your touch on the wheel, brakes and accelerator.

You can see that the '56 Chevy is a standard for style. But until you have driven one you're missing the best part of the news—the fact that Chevrolet is the smoothest, coldest, most wedded-to-the-road automobile you ever hugged. Try it and see.

America's largest selling car—2 million more owners than any other make!

You get more car when you buy it... more dollars when you sell it! Chevy has the highest resale value of the leading low-priced models!

Only franchised Chevrolet dealers **CHEVROLET** display this famous trademark

We favor such legislation, and have long believed so-called juvenile delinquency is actually parental delinquency, and that parents should be held responsible for uncontrolled, or illegal, behavior on the part of their offspring.

THE AMERICAN WAY

Scuttling American Independence

by John T. Flynn

(EDITOR'S NOTE: John T. Flynn is a noted author, lecturer, and radio commentator.)

Permit me to introduce to you two eminent characters. One of them is Richard Henry Lee. The other is Mr. John Foster Dulles, our Secretary of State. Richard Henry Lee introduced in the first Continental Congress a resolution declaring that "the United Colonies ought to be independent, states and all political connection between them and Great Britain is totally dissolved." That was 180 years ago. John Foster Dulles has now embarked upon a scheme to undo that act and destroy the independence of this country — to literally put us back in the British Empire. We might let this pass, but for the fact that Mr. Dulles is our Secretary of State and speaks with the authority of the President of the United States.

The plan is simple. As part of our post-war policy this country is trapped in an arrangement known as the North Atlantic Treaty Organization—affectionately called NATO. It includes the United States, Canada, Great Britain, France, Belgium, the Netherlands, Norway and several other so-called "democratic" countries. But this combination is a purely military alliance—set up as a bulwark against any advance attempted by Russia.

But now Secretary of State Dulles has come up with his great dream. We are to take NATO and its military functions add the great and sovereign functions of political power. In other words, NATO will be an inter-continental confederacy—a sovereign institution with a government of its own equipped with political, economic and military power. If the great dream is realized, it will have the executive, its cabinet, its parliament and its armies. For all practical purposes, in it the United States will be a great province—and what a province one that will say most of the bills.

Of course it is unthinkable that this country could surrender a huge chunk of its sovereignty and sink its power in a wholly new political structure without an amendment to the Constitution. But the patriots of this scheme have thought that it will be done by treaty. That is one of the reasons why a small Americanizer John Bricker of Ohio has been storming Congress and the states to adopt an amendment that will put an end

to the abuses of the treaty power.

There is nothing wholly new in all this. Agitation for it began over a generation ago when Cecil Rhodes—a great British expansionist—set up a huge endowment to promote the eventual union of America and Britain. He left a large fortune to bring intellectual American students to Oxford to be indoctrinated in this giddy idea. Over 1200 have come back as the shock troops of British-American union—"Union Now" it is called. Some of our most powerful newspapers advocate it. Some of our great university presidents join in the hurrah. Now a curious offshoot of World War II provides the occasion and the platform for launching the scheme. After that war, a purely military alliance was set up to discourage Stalin from seeking to push his Communist frontier further West in Europe by force. It was a strictly military arrangement and was called the North Atlantic Treaty Organization, already referred to.

Mr. Dulles—a worshipper at the shrine of Britain—made a hurried trip to Europe in May. His objective was and remains to "enlarge" NATO. Instead of an allied military force, run by the generals, it will be a powerful political institution—an international government—going far beyond the limited aims of the United Nations. It will have, in addition to the international arm, a cabinet and a parliament to give it full-scale government. The United States will be a kind of dominion within this super-government.

Is this just a lot of pathetic nonsense—the cook's song of some dreamy visionary? By no means. It is now being pressed with great industry by our Secretary of State—the highest functionary in President Eisenhower's cabinet. But, more than this, the President has given the scheme his full approval. And what is quite as important, Dr. Milton Eisenhower, the President's brother and closest advisor, is all for this dangerous adventure.

Do not say this can't happen. After all the fantastic adventures, right out of cloud-land—from the IRA and AA of General Johnson and Henry Wallace in 1948 down to the giving of two-thirds of Europe and Asia to the late Mr. Stalin one would suppose we were cured. But, alas, no! The latest is that we rescind Richard Henry Lee's resolution of independence in 1776 and join a European Socialist Empire.

OXFORD COUNTY EXTENSION FAMILY REUNION

Extension Family Reunion is what it will be called instead of Annual Meeting this year. According to a meeting of the committee held last Friday, one of the features of this annual event has been the opportunity to meet people from all over the county. "It's a reunion," said Bob Hastings of East Bethel, "so why not call it the Extension Family Reunion." Other members of the committee agreed to this so now it's Oxford County Family Reunion to be held the evening of October 20th. The date is set and the committee has someone special reserved for a speaker. Mr. Fenton of the U. S. Dept. of Agriculture will tell of products made from Agricultural commodities. He has exhibits, a style show and many things of interest to tell about, so save the date of Monday, October 20th.

"When the history of this age of peril, prosperity and hope for atom peace is fully described, great credit for maintaining our freedom will go to the American press, and particularly the country and suburban newspaper." — Secretary of Commerce Sinclair Weeks.
